

We are recognising your generosity.

In 2017–18, 13,354 people together raised a phenomenal £59.1 million for research and education at Imperial College London. This is an incredible success, achieved through collaborative efforts between Imperial alumni, friends, students and staff.

Thank you to everyone who gave to Imperial in 2017–2018.

The Imperial 1907 Circle

The Imperial 1907 Circle recognises donors who give £5,000 or more during the College's financial year and whose philanthropic support plays a leading role in advancing research and education at Imperial. Named after the year in which the College was established by royal charter, the Circle offers its members a commemorative lapel pin and special invitations to College events.

↑ Imperial this year marked the topping out of the Michael Uren Biomedical Engineering Research Hub, one of the flagship White City Campus buildings. The building, which was made possible by a £40 million gift from Sir Michael Uren and his Foundation, will house life-changing research into new and affordable medical technology. Sir Michael Uren's sons and representatives from the Foundation joined Imperial staff for an event to celebrate this milestone in the building's construction.

The Imperial 1851 Circle

The Imperial 1851 Circle honours those donors who make a contribution of between £1,000 and £4,999 during the financial year. By giving at this level, Circle members play a crucial role in shaping the future of Imperial. The Circle is named after Prince Albert's 1851 vision for a new scientific and cultural quarter in South Kensington, with Imperial College London at its heart. Members receive special recognition in donor listings, invitations to College events and a commemorative lapel pin.

Over 50 supporters joined the Queen's Tower Society, which now brings together over 300 friends who have made the very special decision to remember Imperial in their will.

A special afternoon tea in the newly refurbished library of the Dyson School of Design Engineering provided an opportunity for alumni and friends of the College to learn more about leaving a gift to Imperial in their will. The event, which was hosted by Professor Nigel Brandon, Dean of the Faculty of Engineering, focused on the importance of legacy gifts to Imperial's mission and highlighted sources of support for people considering a legacy gift. ↓

“I’ve had some lucky breaks in life and one of the luckiest was to be able to attend Imperial College Business School for an Executive MBA and then to be made redundant from my job in the middle of the degree. Thanks to my studies I felt confident enough to have a go at starting my own business. With a lot of hard work and a few more lucky breaks along the way, our business grew and I was able to create security and wealth for myself and my family that I never would have achieved as an employee. I am honoured and privileged to be able to contribute to someone else’s lucky break by leaving a portion of my estate to Imperial College London.”
